

Bigger. Stronger. Safer.

## THE ULTIMATE PIN PULLERS

*These innovative new products make pulling the 5th wheel handle a snap. Large and small fleets all want to improve productivity and reduce injuries. That's what the Ergo Hook and Reducer can do for you.*

### ERGO HOOK

- Puts you in an ergonomically improved position that uses your body weight and not just your arm and shoulder.
- Solid steel construction
- Made in U.S.A

MSG001H  
Ergo Hook

#### Instruction

1. Hook the plate handle
2. Use two hands to hold the Ergo Hook
3. Pull using your body to evenly distribute the load

MST001R  
Reducer

#### Instruction

1. Hook the plate handle
2. Brace against any solid surface
3. Pull the reducer handle

### REDUCER

- Improves pulling position
- Uses 50%-60% less force
- Keeps you clean and safe
- Helps prevent injuries
- Made tough to last long
- No installation needed
- Made in U.S.A
